

Verity 340B[®] Contract Pharmacy

Maximize your 340B savings

Verity 340B[®] Contract Pharmacy is a comprehensive offering that gives covered entities the opportunity to capture eligible 340B prescriptions filled at retail pharmacies. Additionally, you can extend your Contract Pharmacy 340B savings by leveraging our preferred Specialty and Infusion partnerships.

Coverage

Verity Solutions engages and recruits contract pharmacies on behalf of covered entities.

Administration

We assist retail pharmacies in obtaining proper registration with the Office of Pharmacy Affairs (OPA).

Reporting

Detailed reports and dashboards provide a complete audit-ready view into program performance and activity.

Compliance

User-friendly tools and reports to monitor and validate compliance.

Replenishment

Manages and automates 340B replenishment, minimizing costly inventory swell and eliminating true-ups.

Patient Discounts

Configurable solutions for the uninsured and underinsured with the Verity Care Card, passing 340B savings directly to patients.

Referrals

Streamlined referral capture processes using advanced referral prescription capture tools for 340B eligible prescriptions.

Verity 340B[®] Referral Capture

Uplift your contract pharmacy program

Capturing referrals is a significant way to improve your 340B program's financial results, and the Verity 340B platform provides the tools to make it worth the effort. Our data tells us that well over 50% of savings benefit from referrals can come from less than half of your referral scripts. And with opt-in functionality and the ability to sort by value, provider, drug, patient, and more, we make it easy to hone in where you benefit the most.

What is the 340B position on Referral Capture?

As a Covered Entity (CE) provider, you may refer a patient for a consultation to an outside clinic and consider that patient 340B eligible, as long as you maintain ongoing responsibility for care.

According to HRSA, the **definition of a 340B patient** is an individual who *"...receives health care services from a health care professional who is either employed by the covered entity or provides health care under contractual or other arrangements (e.g. referral for consultation) such that responsibility for the care provided remains with the covered entity."*¹

What is included in a successful referrals program?

The key to a successful referrals program is to to "close the loop" by creating a detailed Policies & Procedures framework which include these critical details:

- The definition of a 340B eligible patient;
- Roles and responsibilities of your team involved in the 340B program workflow;
- Ongoing provider education plans detailing Primary Care Provider (PCP) referral out and back so it's clear the PCP is responsible for continuing care;
- Internal workflow steps for 340B eligibility of referral prescriptions;
- Referral match testing & referral NPI provider maintenance as part of your ongoing self-auditing routine.
