Verity 340B[®] Referral Capture

Boost your 340B savings with options that fit your program needs.

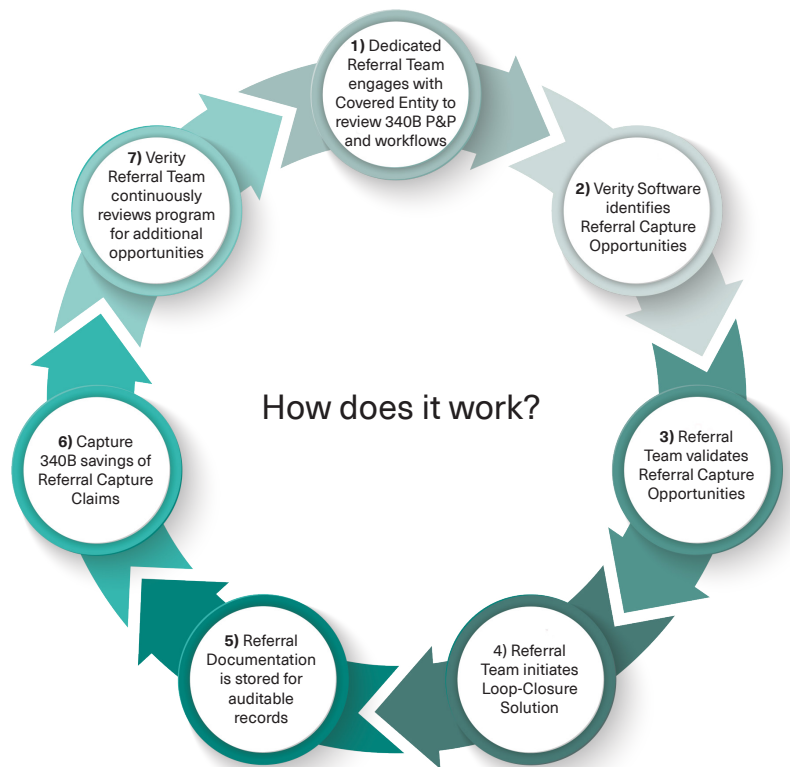

Capturing referrals is a significant way to improve the financial results of your 340B program. Whether using a self-service or full service plan, our no-risk Referral Capture tools and support services make it worth the effort.

- AUDIT FOCUSED
- COMPLIANCE FOCUSED
- SPECIALTY & RETAIL
- PROSPECTIVE ANALYSIS
- NO UP FRONT COSTS

Our full service **Professional** option saves you time and resources with a dedicated Referral team to track and manage all required documentation.

Essentials is for Covered Entities who prefer to manage their own documentation tracking process. Our tools help you identify the best opportunities for additional savings while you close the documentation loop. And with opt-in functionality there is no risk if you do not act.

For either model, you pay only when savings are recovered.

340B Referral Capture Requirements:

- Documentation of patient encounter at CE registered/eligible sites with an employed or contracted provider.
- Documentation of a specialist referral in patient's health record.
- Consult note from the referred-to specialist summarizing care.
 - All documentation is maintained at the CE registered site, indicating the CE oversees the patient's care.
